SELECTED PRACTICE

01

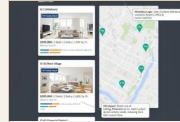

HomeBalance — Real Estate Decision System

LOGIC

2025 · Information Architecture · UX Research

Engineered a metadata-driven property comparison system, architecting multi-dimensional filtering logic for household decision support. Prioritized cognitive load reduction across complex data hierarchies.

02

Apple Watch — Heart Rate UX Audit

LOGIC

2024 · UX Audit · Interaction Analysis · Wearables

Conducted a rigorous UX audit of Apple Watch's Heart Rate Alarm interface — analyzing information hierarchy, notification logic, and physiological interaction design against industry benchmarks.

03

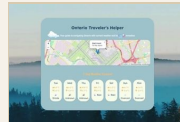

Ontario Traveller's Helper

LOGIC

2025 · API Integration · JavaScript · Geolocation

Architected a real-time travel companion integrating live weather API and geolocation mapping — unifying multi-source data into a single decision surface for Ontario transit navigation.

04

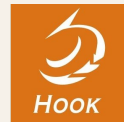

HOOK — Canadian F1 Brand Identity

AESTHETICS

2024 · Brand Identity · Adobe Illustrator

Constructed a high-velocity logomark encoding speed, grip, and national identity — precision geometry engineered for 300 km/h.

05

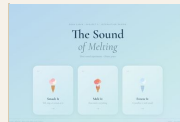

The Sound of Melting — Voice Interaction

TANGIBLE

2026 · P5.js · Sound Design · Physics Simulation

Orchestrated a three-contract voice-to-physics system — Smash, Melt, Freeze — translating acoustic input into real-time material simulation. Voice deployed as physical force.

06

Surface — Architectural Projection Mapping

TANGIBLE

2025 · Projection Mapping · After Effects · Spatial Narrative

Directed a spatial narrative experience — dissolving architectural structure into 90 seconds of choreographed light and motion. Building as canvas; structure as medium.
